Cygnet Operating Locations

Client Locations

90% of customers strongly agree that investing in **testing transformation** is critical to enabling continuous delivery

Our QE Offerings Aligning with Your Business Imperatives

Cygnet's NEXT GEN Quality Engineering Services

Business Transformation

Business Assurance Testing

Focus on areas that directly impact the business drivers by **Gen AI based Intelligent Automated Testing**

Quality Transformation

Enterprise & Product Testing

Accelerate migration and implementation of enterprise, cloud and SaaS applications. **SAP, Oracle, Salesforce, Microsoft Dynamics 365**

Innovative Transformation

Data Transformation AI-based Automated Data Validation and certification Services

Cloud Migration Assurance

Ensure the disposition of the application in the **cloud environment**

Unified Experience Transformation

Consistently Assure **Persona based Omni Channel Experience**

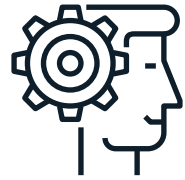

QEXcelerate™ | Test Consulting & Maturity Assessment Framework

'As a Service' Model powered by **TESTINGWHIZ**
by Cygnet.One

Co Create & Partner

Empower Your QE Journey with Our Assets and Platforms

To ensure faster, more reliable, and cost-effective complete quality ecosystem

**Cygnets
Quality
Engineering
Services**

QEXcelerate™

Test Maturity Assessment Framework

A proven framework to accelerate your Quality Engineering journey

RapidQ

Pre-built test accelerators

Help customers achieve 30% faster time to market and 25% reduction in overall testing life cycle

TestingWhiz™

Proprietary AI-Powered, Low Code Testing Platform

"Plug n Play" platform to conduct faster, more comprehensive testing of mission-critical business processes spanning multiple applications and systems

**TestingWhiz
Pro**

Automation First, Data Validation Platform

Enable the quality of data-driven business decisions, providing 40-60% productivity benefits and go-to-market advantages

SmartQE Hub

End-to-End Intelligent QE Platform*

offers integrated smart & intelligent delivery of services across an enterprise's Quality Engineering Life Cycle

* Platform in making

**Faster Go Live
with High
Quality
Product**

**Superior
Customer
Experience**

**60%
Productivity
Improvement**

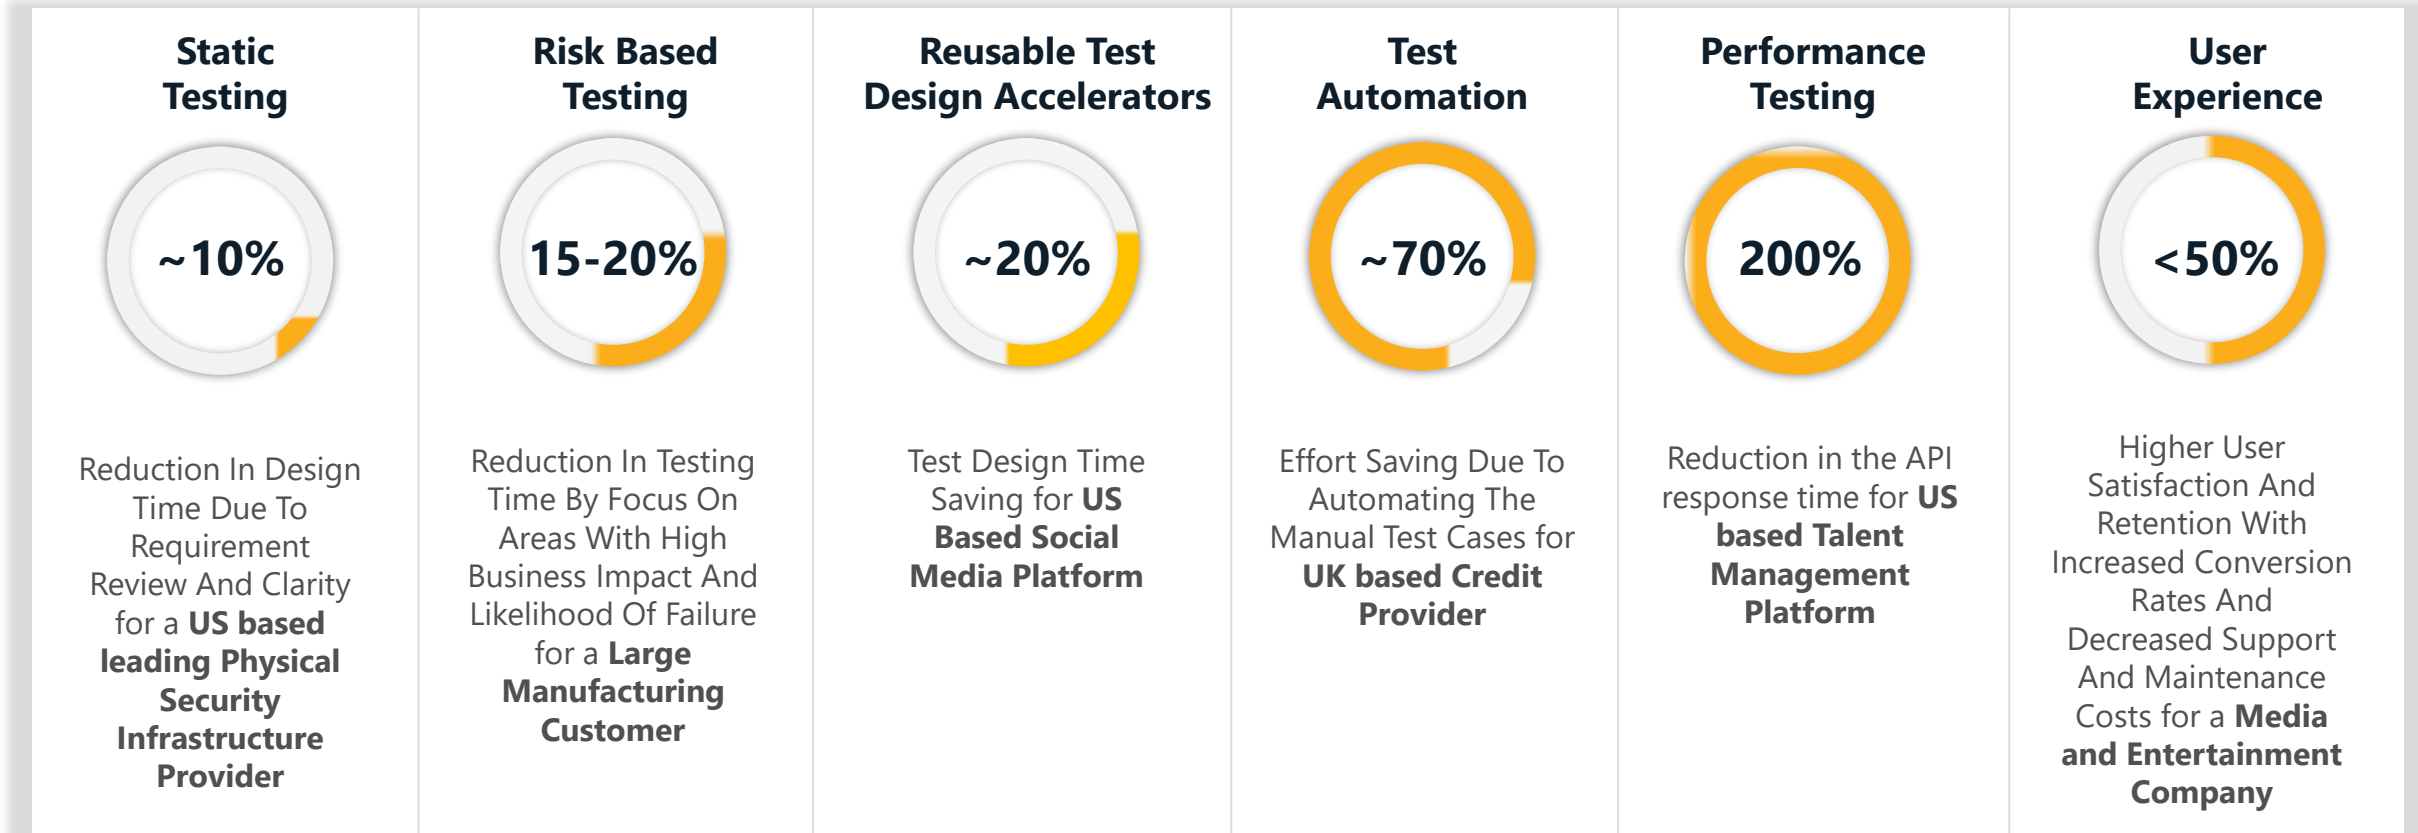

**Lower Cost of
Quality**

Our Recent Success Stories

02

Value that we have brought for our Customers

We have helped our customers to reduce the overall cost of development and support by ~ **30% to 50%** by harnessing the power of **AI and automation** with increased **test coverage**, reduced **human errors**, and accelerated **testing cycles**, while optimizing **testing tools** to their fullest potential, **enhancing efficiency, uncovering defects earlier, and ensuring higher software quality**

Client Profile

The client is one of the largest home-building partner, providing high-quality construction materials with operations spanning across UAE, Bahrain, Sri Lanka and India

Challenges

- Rapidly evolving systems in response to highly-dynamic policies, regulations, plants, partner needs, M & A activity
- Move from monthly releases to biweekly releases with many transaction touching multiple interfaces
- End-to-end testing performed manually, limiting speed, repeatability, and accuracy with limited insight into quality metric benchmarks

Our Solution

- Provided advisory on testing setup, defined SOPs testing metrics and KPI, Test Run Book etc.
- Automation for various touch points including their Order Fulfillment, Vendor Management System to SAP ECC and S/4HANA applications.
- Leveraged Automated test case recommendation to select high impact test cases
- Automated 200+ Test Scripts leveraging Cygnet's Test Automation tool TestingWhiz

Benefits

35%	10X	80%	25%
Cost Reduction	Speed Increase	Test Coverage	Less Defects

Client Profile

The client is United Kingdom's market-leading credit solution provider who works with you to gain a deep understanding of your business, including your long and short-term goals. Challenged, customer profiles and more to ensure one gets the best credit solution as per their needs

Challenges

- Transitioning Non-FCC Regulated Interest-Free Credit Services from Monolithic to Microservices.
- Multiple third-party integrations like Acquired, Sage Pay, TransUnion, and Forter
- Complex scenarios involving both API and UI
- Tech stack :Microservice architecture • PHP Laravel (Backend) • My SQL (Database) • AngularJS (Front-end)

Our Solution

- Comprehensive **toolkit** comprised of test harnesses, test cases, mocks and stubs, etc.
- Set up **RCA** and corrective actions in Jira
- **Risk based test** automation of **UI, Database and API**
- **50+** Scripts created using **GenAI** based solution as POC
- Performance Testing with **Jmeter**, Automation using **TestingWhiz, Browserstack** for device testing, **TestLink** for test case management, **Jira** for defect management

Benefits

40%

Reduced
Test Execution Time

50%

'As a Service' Engagement Model

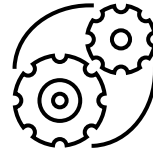

03

Testing 'As-a-Service' Model

What is 'As a Service'?

An **on-demand Testing Services** to cater to your end-to-end requirement for robust and efficient **Quality Engineering** needs with maximum ROI, through the right use of people, processes, tools and best practices.

What does it include ?

People Expertise | **Process** (Methodologies, Best Practices, Approach, Templates etc.) | **Platform** powered by proprietary low code automation tool **TestingWhiz™**

Benefits?

- ✓ **Pay per use model**
- ✓ **Saves upfront investments**
- ✓ **Platform**, specialized **skills** and **process** expertise **bundled together**

Service Catalogue for Testing 'As a Service'

Functional Testing

- System Testing
- Regression Testing
- Mobile Testing
- User Acceptance Testing
- Integration Testing
- Smoke / Sanity Testing
- API Testing
- Localization & Internationalization

Non-Functional Testing

- Usability Testing
- Compatibility across multiple device, platforms, OS, browsers
- Accessibility Testing
- Performance Testing
- Multi Channel Testing (.g., website, mobile app, social media)

Test Automation

- Automated Testing Design
- Automated Testing Design, Execution & Maintenance
- Continuous Testing Pipeline in DevOps

Test Consulting & Assessment Services

- Testing Processes Evaluation & Set up
- Test Automation Assessment
- Resource and Skill Assessment
- Tool Evaluation & Strategy
- Test Metrics and Reporting Framework
- Defect Tracking and management processes Set up

Data Testing

- Data Warehouse Testing
- Data Migration Testing
- Big Data Testing
- Data Validation for ETL

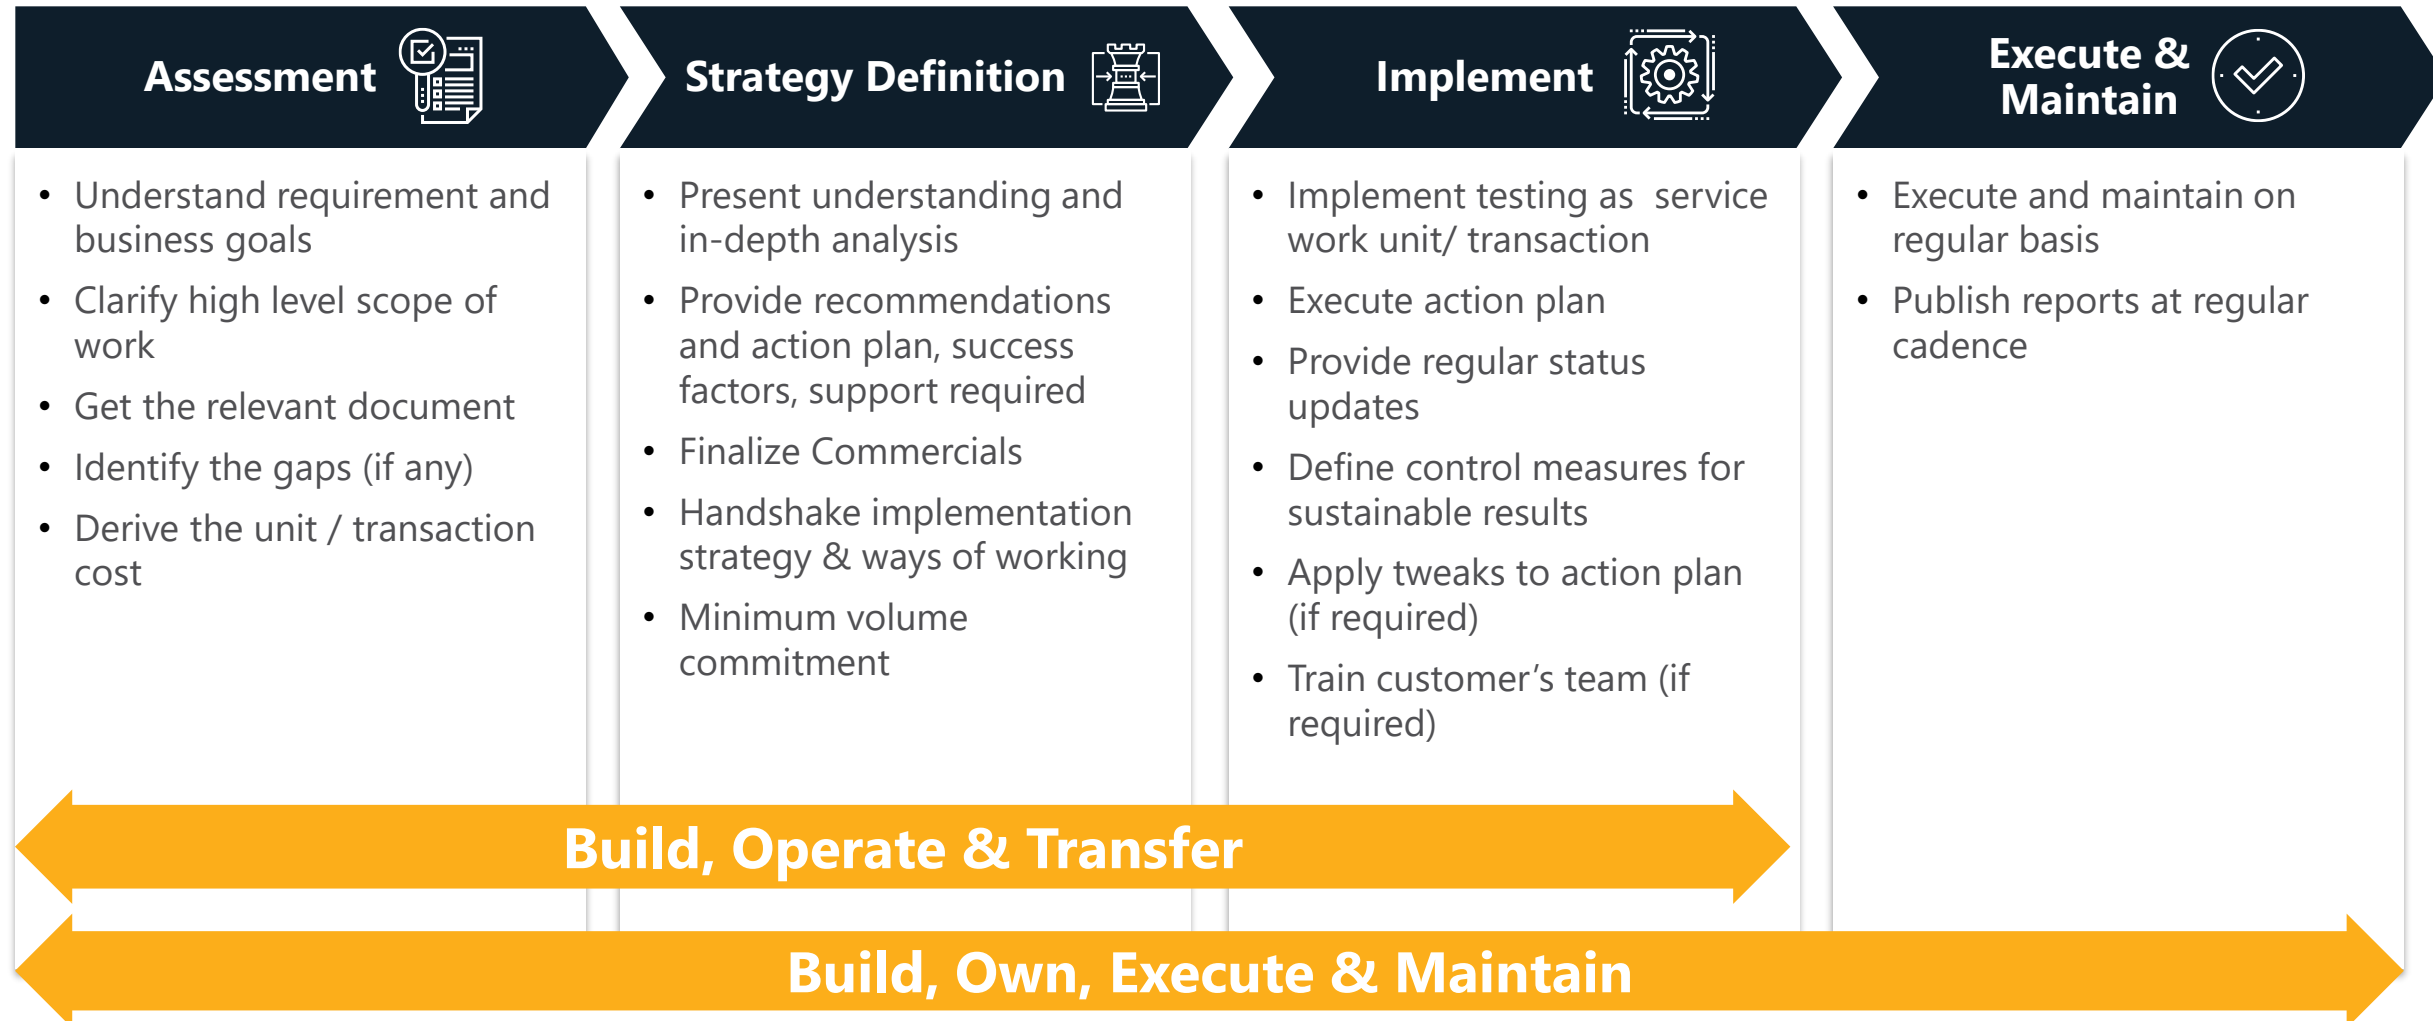

Miscellaneous

- Dedicated Performance, Test Automation, Non-Functional TCoE Set Up
- Test Data Creation & Management
- Test Environment Management

How we deliver 'As a Service'

Out of the box effective solution, highly experienced associates, transparency all towards customer's business objectives
