

Power Your QA with Autonomous AI Agents—Always On, Always Adapting

With Cygnet's AI First Quality Engineering—*We make it real*

Design. Heal. Support. 24/7 Intelligence for Your Testing.

TEST DESIGN AGENT

"From Idea to Automation in Seconds"

Transform plain-English requirements & prompts into fully executable test scripts—no coding needed. Watch as this AI agent crafts, validates, and delivers ready to run scenarios that adapt to your application's logic.

HEALING AGENT

"Zero Downtime, Self Healing Automation"

Say goodbye to flaky tests. This agent detects broken or changed UI elements and instantly repairs your scripts—ensuring your CI/CD pipelines stay green and your releases stay on schedule.

SUPPORT AGENT

"Your 24/7 QA Co Pilot"

Get instant insights, step by step troubleshooting, and real time documentation—simply by asking. No more digging through logs or manuals; this AI agent delivers the answers you need, exactly when you need them.

Customer Impact

Accelerated Test Creation

Generate ready to run scripts in seconds with our Test Design Agent, cutting your authoring effort by up to 90%—so you can launch faster.

Uninterrupted Automation

Stay ahead of UI/API changes—our Healing Agent reduces flaky test maintenance by over 60%, keeping your pipelines green.

Lean QA Operations

Offload routine tasks to AI Agents, freeing your experts for strategic work and driving substantial cost savings.

Rock Solid Releases

Harness predictive insights and continuous validation to slash critical escapes and boost confidence in every deployment.

Have any another testing challenge?

Tap into our suite of AI agents—or let's co create a custom solution—to tackle your unique business needs."
