

## Modernize. Migrate. Maximize.

Don't let legacy hold you back! Cygnet.One powers next-gen transformation — accelerating your digital evolution with seamless cloud modernization and smart migrations. Whether you're looking to unlock agility, bolster security, or drive innovation, we future-proof your business on AWS and beyond, so you can scale new heights.

### Your AWS Transformation Partner

#### End-to-End Cloud Transformation

From assessment and architecture to migration and modernization, Cygnet.One delivers robust, resilient, and secure AWS solutions for every industry.

#### Automated CI/CD & DevOps

Lightning-fast deployments with automated pipelines, containerization, and state-of-the-art cloud native strategies using Amazon EKS, RDS, S3, and more.

#### Cost Optimization & Observability

Advanced cost control, governance, and 360° observability guarantee your AWS investment delivers maximum value.

#### AI/ML, Analytics & Compliance

Tap into AWS AI/ML, build analytics lakes, and architect for GDPR, SOC 1, and global compliance.
