

CYGNET.ONE

**Cygnet.One joins hands with VIPRE
to ensure **Secure and Safe digital
environment** for organizations**

Do you know?

Tools ≠ strategy
Compliance ≠ capability

76% of breached organizations were **fully compliant** at the time of the incident.

Compliance is not protection.

Your last audit said you were secure. Your next breach won't care.

Compliance tells you where you stood yesterday. It says nothing about tomorrow.

Key Email Threat Trends (Q1 2026)

Malicious Email Landscape

In Q1 2026, the threat landscape continues to evolve, with attackers using both traditional and innovative methods to bypass defenses.

- **Total Emails Processed:** 1.8 billion
- **Malicious Emails Detected:** 207.72 million
- **Dangerous link clicks:** 12.3 million

Detection Breakdown

Attackers are balancing between content-based and link-based threats:

- **Content-Based Detections:** 108 million
- **Link-Based Detections:** 99.7 million
- **Never seen before malicious attachments:** 141 thousand

Top Spam Categories

- **Scams:** 44.44% – Fake offers, business requests
- **Commercial Spam:** 46% – Unsolicited advertisements
- **Phishing:** 25.87% – Embedded links and attachments

Subtle threats like scams and phishing are more prevalent than ransomware and malware, emphasizing the need for user vigilance.

Delivering next generation protection for your human and technology vulnerabilities

>50,000
customers

Customer First
Approach

6.5M+ endpoints
protected

1.2B+ emails processed
monthly

6PB+ of collected
malware samples in total

1M+ malware samples
processed every day

Established And Respected Across The Globe

- 30+ years of experience in the industry
- 50,000+ customers globally
- Committed to long-term support of customers
- >90% customer satisfaction and retention

Industry Leading Email, Endpoint And User Training Solutions

- Developed in line with customer needs
- Unparalleled expertise and knowledge across various Threat Vectors
- Acquired industry leading IP to enhance VIPRE offerings
- Focused investments in Threat Analysis, Traffic Analysis, Realtime Behavioral Analytics, AI, Heuristics, and Machine Learning
- Recent advances:
 - Endpoint Detection and Response (EDR)
 - Managed Endpoint Detection and Response (MDR)
 - Email Archiving
 - Email Advanced Threat Protection (ATP)

Layers of security to protect your business

- Forensic Attack Investigation & Remediation
- Managed Detection & Response
- Next-generation AV, Behavioral Analysis and ML
- DNS Protection
- Endpoint firewall/IDS/Browser Protection
- Included Vulnerability and Patch Management
- Self-serve Multi-tenant Console

ENDPOINT

Detection & Response
Security Cloud
Security Server
Web Access Control
Endpoint MDR

- Curated Learning Paths
- Phishing/Vishing/SMSHING Simulation
- Policy Acknowledgement
- Customization Options Available
- Multi-tenant Console

TRAINING

Security Awareness Training

EMAIL

Advanced Threat Protection
Security Cloud
Archiving
SafeSend

- Anti-Spam, Antivirus, Anti-Malware
- Next-Generation URL Link Isolation (Sandboxing), Attachment Sandboxing
- Email Archiving, Email Encryption
- Self-serve Multi-tenant Console
- Data Loss Awareness

THREAT

ThreatAnalyzer
ThreatIQ

- Dynamic Forensic Analysis Sandbox
- Analyze Files and Links
- ML-based Behavioral Determination Engine
- Real-time Threat Intelligence
- Flexible REST APIs

Here's the impact & ROI analysis for a services company after they implemented VIPRE

VIPRE Advanced Email Threat Protection

Email Analytics

Remote Browser Isolation

Threat Analyzer

Threat Explorer

Email Remediation

Advanced Policies

Continuity

17K+ Emails

Scan daily Incoming emails on the servers

14K clean emails

received on organization domain per day

1K+ Reject emails

Due to Custom organization policies where there is criteria mismatch

1000+ Users

Across mailboxes for incoming emails scanned through VIPRE Advanced threat protection solutions concurrent users

500+ Spam Emails

Received on organization domain per day that get auto-blocked

Zero Downtime

Migrated production with minimum downtime and zero disruption to BAU

Accelerated time to value

- Migrated, Containerized & Deployed
- Implemented best practices
- Delivered value quickly

Reduced Risk

- High availability & Disaster recovery
- Regulatory compliance
- Implemented Enhanced security

Saved time & Money

- On time & In budget
- Enabled customers for the digital transformation

Next Gen Managed IT Security Services

End-to-End
Managed IT
Solutions

On-Prem, Cloud and
Security Experts

Automated
DevSecOps

Plug and Play
approach

Reduced TAT for
Incident Response

99.9%
SLA adherence

5-minute Response
time for Critical Issues

certified teams

Target Market

SMB to Enterprise

Segment

Large Enterprises
(8,000+ Employees)

Enterprises
(3,000 - 8,000+
Employees)

Mid-size Enterprises
(1,500 - 3,000+
Employees)

Recognised by the industry

Why VIPRE

- Revenue concentrated on R&D rather than marketing
- Customer-Centric Approach
- Trusted by Major Security Technology Partners
- Strong Support and Reputation
- Intuitive and Easy-to-Use Interface
- Cost-Effective, Scalable Solutions
- Global Presence
- VIPRE caters to All Industries and Company Sizes, from SMB to Enterprise
- Financially Stable and Backed by **Ziff Davis**, a Billion-Dollar Global Digital Solutions Company
